

July 15, 2020

Dear Family of our Residents,

We are sending an update on our St. Joseph's Home, hoping that it finds you doing well, staying healthy, and enjoying some beautiful, if hot, weather!

Thanks be to God, that we are doing well in our Home. Our Residents, Sisters and Staff are very happy today as we begin the "family visits" in our Home. Although the visit of one-half hour passes quickly, those coming and having this time with their loved one are enjoying every minute. We are very grateful to all those who do come, and who share the responsibility of safety which we are trying so very hard to maintain. Safe Distancing, washing/sanitizing hands, masks, are provided at each visit. Oglanda in Social Service is ready and happy to schedule visits as they come. Her email: sslouisville@littlesistersofthepoor.org.

We have no one with Covid-19 in our Home, and at this time we have only one staff member who is waiting for a negative test result, then hopefully will be able to return to work.

Our beautician is planning to return soon; you can imagine the great welcome she will receive. We consider her an essential worker, and so are able to have her return at this time.

Our newest activity will be cook-outs for small groups of 10, to be held in our yard, in the small garden areas. We pray for good weather, not too hot and humid, so that the residents will enjoy this special time.

Our "lockdown" continues, and we are committed to carrying it through, guarding the safety of each person in our Home. In approximately two weeks we will have a complete Covid-19 retesting done on our Sisters and staff.

Please continue to keep us in your prayers, know that you are in ours;

God bless you,

Mother Paul, lsp
